More water available for fish habitat. Mark will bring forward information as this gets sorted out and have people come to speak about the issue to become more educated on the issues.
 - Ann (Sonoma Water) significant impact to the upper river.

E. Regional Updates

- a. Russian River Confluence
 - Andy (RRWA) workplan is not ready but may be ready by December. Suggested having Confluence under a separate meeting.
 - i. Take the Watershed Temperature Day September 15
 - Andy (RRWA) developed temperature day as part of the R3MP. Great press coverage. Ways to improve: engage TWG, emphasize it is not scientific, and make it more positive.
 - Ann (Sonoma Water) has there been any follow up? Andy (RRWA) mentioned cleanup efforts and positive feedback.
 - Heaven (Santa Rosa) commented that Santa Rosa does have an extensive set of temperature data that is scientific. Temperature day should not be a replacement of that data.
 - ii. Economic Forum-Adriene (Confluence) registration is happening now
 - iii. October paddle- Adriene (Confluence) not a lot of signups, still deciding on if the event will take place.
- b. R3MP

- F. Guest Presentation: Bert Whitaker, Director, Sonoma County Regional Parks, “Sonoma County Parks Improvement, Water Quality and Fire Safety Measure”**
- o Bert Whitaker (Sonoma County): Parks have aging infrastructure. Impacted by the fires. Proposed Measure M: 1/8 cent county wide sales tax, 11 million annually with 2/3 going to Regional Parks and 1/3 going to incorporated city support. The tax would support improvements with public safety, access, and further developing natural resources.
 - o Melanie (Cloverdale) asked if Sonoma Water has discussed the installation of fire cameras at parks?
 - o Bert (Sonoma County) confirmed they are discussing and identifying locations.
 - o Andy (RRWA) mentioned Bert was a participant in the Confluence paddle and had a significant role with getting Confluence going.
