Dear Senator McGuire:

Serving as Executive Director for the Russian River Watershed Association (RRWA), I am writing to express my support for SB 867, introduced by Senators Allen, Becker, Portantino, and Stern, and ask that that you consider requesting that SB 867 be amended to increase the amount for grants and expenditures related to Integrated Regional Water Management (IRWM) to improve climate resilience on a watershed basis from \$300 million to \$350 million. We are requesting the increase to \$350 million as that amount is consistent with funding amounts in AB 1567.

In the face of increasing intensity and frequency of droughts, storms, water contamination, and more, we believe that our watershed must improve its water infrastructure while improving regional water self-reliance. Additional resources from IRWM will significantly help our local communities who have the knowledge, skills, and expertise to implement sustainable, reliable, and regionally appropriate solutions before our water issues become more complicated, expensive, and dangerous.

The RRWA is a coalition of ten public agencies in Sonoma and Mendocino Counties that have come together to coordinate regional programs in the Russian River Watershed for clean water, habitat restoration, and watershed enhancement.

Thank you in advance for considering increased funding for this important collaborative effort. Please feel free to contact me if you have any questions, at [cleanwater@rrwatershed.org](mailto:cleanwater@rrwatershed.org) or 707 508 3670.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Andy Rodgers', is written over a thin blue horizontal line.

Andy Rodgers, Executive Director  
Russian River Watershed Association

CC: Senator Ben Allen
